EDUCATION

University of Maryland, College Park: College of Information

Graduated: May 2026

Bachelor of Science in Information Science

Minor: Astronomy

- **Dean's Award** for Outstanding Undergraduate Research Achievement
- **Alpha Chi Omega — Member / Chaplain Chair:** Enhanced chapter engagement and morale for a 250+ member organization by organizing values-based programming and fostering an inclusive community environment

WORK EXPERIENCE

University of Maryland, College of Information, College Park, MD

Undergraduate Research Assistant (HASIA)

Jan 2026 – Present

- Support a U.S. Army Research-funded study on AI-augmented team cognition by coding 140+ human-subject narratives across two datasets, applying qualitative codebooks to analyze intelligence shift handover scenarios
- Achieved 96% inter-rater agreement with senior researcher benchmarks by computing Cohen's Kappa reliability coefficients in Excel across iterative batches of 40 narratives, tracked in version-controlled coding sheets across multiple data tranches
- Reconcile coding discrepancies across 140+ narratives by facilitating 6+ consensus meetings and maintaining a master Excel document integrating codebook definitions, coded outputs, and reliability metrics

Undergraduate Research Assistant (TORL)

May 2025 – Jan 2026

- Co-Authored end-to-end data collection protocols spanning backend systems, front-end interfaces, and participant-facing procedures, standardizing session execution across the research team
- Oversaw technical setup and execution of 40+ research sessions, managing multi-camera video, audio, and hybrid Zoom systems to ensure smooth, high-quality data collection
- Resolved hardware and software issues in real time during live sessions, reducing disruptions and maintaining reliable data collection across 20+ session

Undergraduate Teaching Assistant

Aug 2024 – May 2026

- Mentored and supported 300+ students over two years in programming, data analytics, and foundational information science concepts through one-on-one and group instruction
- Collaborated with the course instructor to design and refine lesson plans, assessments, and teaching materials for Organization of Information, ensuring a cohesive curriculum
- Led weekly study groups and office hours, breaking down complex concepts and adapting explanations to varied learning styles

Cornerstone Bar and Grill, College Park, MD

Bartender

May 2024 – May 2026

- Managed 10,000+ customer interactions over two years in a fast-paced environment, maintaining accuracy, professionalism, and strong service quality
- Trained 20+ new staff members on procedures, communication, and workflow expectations, contributing to smoother team operations

Tollefson Swimming / Fins Swimming

Head Coach

May 2019– May 2023

- Served as Head Coach for a private lessons program, coaching swimmers of all ages and skill levels while specializing in individualized instruction for children with differing abilities, supporting 400+ families

SELECTED TECHNICAL PROJECTS

Cheer Me Up - Full Stack Wellness Application

- Engineered a full-stack mood-tracking platform using Node.js and Supabase, featuring secure data persistence and a responsive UI deployed via Vercel
- Integrated third-party APIs for motivational content delivery and built interactive dashboards with Chart.js to enable longitudinal mood analysis

Dream Analysis - Object-Oriented Software Design

- Designed and implemented an object-oriented Python application for collecting and analyzing qualitative dream journal data, using regex-based validation to improve data consistency
- Created a searchable thematic dictionary using automated keyword-overlap logic to identify recurring narrative patterns within longitudinal user entries

KEY SKILLS & TOOLS

Technical: Python, Pandas, NumPy, R, SQL/MySQL, Excel, HTML, JSON, Matplotlib, ggplot2, plotly
