EDUCATION

University of Maryland, College of Information Science
B.S. in Information Science

Graduated: May 2026

Minor: *Astronomy*

- **Dean's Award** for Outstanding Undergraduate Research Achievement
- **Alpha Chi Omega — Member / Chaplain Chair:** Enhanced chapter engagement and morale for a 250+ member organization by organizing values-based programming and fostering an inclusive community environment

WORK EXPERIENCE

University of Maryland, College of Information Science

Undergraduate Research Assistant (HASIA) / Jan 2026 – Present

College Park, MD

- In support of a U.S. Army Research-funded study on AI-augmented team cognition, independently coded 130+ human-subject narratives across two datasets in structured Excel spreadsheets, applying multi-term qualitative codebooks to analyze intelligence shift handover scenarios.
- Computed Cohen's Kappa inter-rater reliability coefficients in Excel across iterative batches of 40 narratives, maintaining version-controlled coding sheets that tracked agreement scores against senior researcher benchmarks across multiple tranches of data.
- Reconciled coding discrepancies across 100+ narratives in 6+ consensus meetings, directly updating and maintaining a master Excel consensus document integrating codebook definitions, coded outputs, and reliability metrics across two datasets

Information Science Undergraduate Teaching Assistant / Aug 2024 - May 2026

College Park, MD

- Mentored and supported 50 students weekly in programming, data analytics, and foundational information science concepts through one-on-one and group instruction.
- Collaborated closely with the course instructor to design and refine lesson plans, assessments, and teaching materials, ensuring a cohesive curriculum and interactive learning environment.
- Led weekly study groups and office hours to assist students with technical challenges, fostering a collaborative learning environment that improves comprehension and engagement. Provides individualized support by breaking down complex concepts and adapting explanations to varied learning styles to drive measurable academic progress.

Undergraduate Research Assistant (TORL) / May 2025 - May 2026

College Park, MD

- Oversaw technical setup and execution of research sessions, managing multi-camera video, audio, and hybrid Zoom systems to ensure smooth, high-quality data collection.
- Resolved hardware and software issues during sessions, reducing disruptions and maintaining reliable data collection

Cornerstone Bar and Grill

Bartender & Marketing Assistant / May 2024 – May 2026

College Park, MD

- Managed high-volume customer interactions in a fast-paced environment while maintaining accuracy, professionalism, and strong service quality
- Supported marketing efforts by creating and managing content for the bar's TikTok account to increase brand visibility.
- Trained new staff on procedures, communication, and workflow expectations, contributing to smoother team operation

SELECTED TECHNICAL PROJECTS

Cheer Me Up - Full-Stack Wellness Application

- Engineered a comprehensive mood-tracking platform using Node.js and Supabase, featuring secure data persistence and a responsive UI deployed through Vercel.
- Integrated third-party APIs for motivational content delivery and utilized Chart.js to develop interactive visual dashboards for longitudinal mood analysis.

Dream Analysis - Object-Oriented Software Design

- Designed and implemented an object-oriented Python application for collecting and analyzing qualitative dream journal data, using regex-based validation to improve data consistency.
- Created a searchable thematic dictionary using automated keyword-overlap logic to identify recurring narrative patterns within longitudinal user entries.

SKILLS AND ADDITIONAL INFORMATION

- **Technical Skills:** Python, Pandas, NumPy, R, SQL/MySQL, Excel, HTML, JSON, Matplotlib, ggplot2, plotly
